

World Series of Poker, the #1 Free-to-Play Poker Game, Launches New Blackjack Game Mode

March 11, 2026

As one of the world's most popular games, the introduction of Blackjack strengthens WSOP's ability to deliver a diverse and enjoyable experience for players

HERZLIYA, Israel, March 11, 2026 /PRNewswire/ -- [World Series of Poker® \(WSOP\)](#), the #1* free-to-play mobile poker game from gaming entertainment and technology leader Playtika, today announced the launch of a new Blackjack game mode. The introduction of free to play Blackjack now broadens the WSOP experience, giving players more choice, more variety, and new ways to play alongside established poker formats. The addition reinforces WSOP's position as a dynamic entertainment platform that continues to evolve its offering to meet player demand.

The new mode includes Poker Power Jackpot, the main side bet within WSOP Blackjack. Poker Power Jackpot pays based on a three-card poker hand created from the player's first two cards and the dealer's upcard, incorporating poker hand rankings into the Blackjack format. Players will also meet Sofia, the new in-game Blackjack dealer.

The introduction of Blackjack expands the gameplay available within WSOP, which also includes Texas Hold'em, Omaha, a variety of poker games, and WSOP tournaments available throughout the day.

Guy Ceder, General Manager of WSOP comments: *"Blackjack is one of the most recognised casino games globally and we're excited to bring it to our players as another way to enjoy the WSOP experience. We're always looking for ways to expand the entertainment value of the game and respond to what our players want to see in the app. With Poker Power Jackpot as the main side bet and the introduction of Sofia as the dealer, this mode combines traditional blackjack with elements of poker, offering players a fresh and high-engagement experience."*
