Non-GAAP Financial Measures

Adjusted EBITDA and Adjusted Net Income are non-GAAP financial measures and should not be construed as an alternative to net income as an indicator of operating performance, nor as an alternative to cash flow provided by operating activities as a measure of liquidity, or any other performance measure in each case as determined in accordance with GAAP.

Our Credit Agreement defines Adjusted EBITDA as net income before (i) interest expense, (ii) interest income, (iii) provision for income taxes, (iv) depreciation and amortization expense, (v) impairment charges, (vi) stock-based compensation, (vii) contingent consideration, (viii) acquisition and related expenses, and (ix) certain other items. We calculate Adjusted EBITDA Margin as Adjusted EBITDA divided by revenues.

We define Adjusted Net Income as net income before (i) impairment charges, and (ii) contingent consideration.

Our presentation of Adjusted EBITDA, Adjusted EBITDA Margin and Adjusted Net Income should not be construed as an inference that our future results will be unaffected by unusual or unexpected items.

A "non-GAAP financial measure" is defined as a numerical measure of a company's financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in the statements of income, balance sheets or statements of cash flow of the company. You should not consider these non-GAAP financial measures in isolation, or as a substitute for analysis of results as reported under GAAP. For information regarding the non-GAAP financial measures used by us, and for a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures, see the Appendix to this presentation.

Non-GAAP Financial Measure

Adjusted EBITDA and Adjusted Net Income are non-GAAP financial measures and should not be construed as an alternative to net income as an indicator of operating performance, nor as an alternative to cash flow provided by operating activities as a measure of liquidity, or any other performance measure in each case as determined in accordance with GAAP.

Our Credit Agreement defines Adjusted EBITDA as net income before (i) interest expense, (ii) interest income, (iii) provision for income taxes, (iv) depreciation and amortization expense, (v) impairment charges, (vi) stock-based compensation, (vii) contingent consideration, (viii) acquisition and related expenses, and (ix) certain other items. We calculate Adjusted EBITDA Margin as Adjusted EBITDA divided by revenues.

We define Adjusted Net Income as net income before (i) impairment charges, and (ii) contingent consideration.

Adjusted EBITDA, Adjusted EBITDA Margin and Adjusted Net Income as calculated herein may not be comparable to similarly titled measures reported by other companies within the industry and are not determined in accordance with GAAP. Our presentation of Adjusted EBITDA, Adjusted EBITDA Margin and Adjusted Net Income should not be construed as an inference that our future results will be unaffected by unusual or unexpected items.
